On 08/27/2010, I was working my current assignment as a detective with the Madison Police Dept., currently assigned to the South Police District station. On this date, ATF Special Agent William Baudhuin and I responded to the Madison Police Dept. evidence facility located at N. First St. and E. Johnson St. in the City of Madison. AFT S/A Baudhuin had obtained a federal search warrant to search a 5' tall green metal stack-on safe bearing serial # 5610DG000586.

Upon arrival at the First St. garage evidence facility, I met with property clerk Mary Jorenby, who had retrieved the stack-on safe property tagged under 0242965 and turned the safe back over into my temporary custody. I did complete a City of Madison Police Dept. Property Room Release Form, a copy of which is attached to this report.

At approximately 8:05 AM, Dan Wehman, who is an employee of Capitol Lock & Security, began working on obtaining entry into the safe.

At approximately 8:30 AM, I observed that Dan Wehman, Capitol Lock & Security employee, was able to open the green Stack-On safe.

At this time S/A Baudhuin and I were assisted by ATF S/A William Fulton. S/A Fulton took overall photographs of the inside of the safe, along with taking photographs throughout the collection process of any items that were seized for potential evidentiary value.

Entry time: 8:05 AM
Exit time: 9:35 AM

DRUG EVIDENCE:

Item #	Tag #	Locker	Description	Located By
TOP SHELF				
1	244761	Locker # 28 SPD	My Weigh black digital scale 7000 grams x 1 gram with suspect MJ/THC residue	Det. Copeland

Case # 2010-207736, DET MARY J COPELAND 0811

DOOR OF SAFE				
14	244774	Locker # 28 SPD	Small piece of paper containing the letters NYC and also the word DESIL	S/A Fulton

I maintained custody of the above listed items and conveyed them to the South Police District station. Once at the South District station, I photocopied the U.S. currency and documents, copies of which are attached to this report.

I conducted a field drug test on the suspect MJ/THC, specifically the Duquenois-Levine pouch type field drug test. I performed this test exactly as I have been trained and I received a positive result for the presence of THC. I took a random sample from one of the jars containing the suspect MJ/THC and I noted that the suspect MJ contained within the jar, specifically item # 4, was consistent in odor and appearance to the other jars containing suspect MJ/THC. I have performed the Duquenois-Levine field drug test on numerous occasions in the past. I have been trained in the identification and field testing of controlled substances by a master trainer with the Wisconsin Division of Criminal Investigation, the DEA, and senior Task Force detectives. I have had my field results consistently corroborated by the Wisconsin State Crime Laboratory after further testing and believe this test to be reliable inasmuch as it was approved by the Wisconsin State Crime Laboratory to be used to determine the presence of THC.

S/A Baudhuin completed a inventory list, a copy of which will be attached to the federal warrant and returned.

I made a phone call to Jeremy Visocky's attorney, who had been previously identified to me as Michael Schmidt. I left a voice mail for Attorney Schmidt, advising him of the execution of the search warrant and also that I had a evidence list available to either deliver to him or mail to him. I requested Attorney Schmidt contact me and/or give me a mailing address for the purposes of him and his client obtaining a copy of the evidentiary items seized from the safe pursuant to the warrant.

Investigation continuing.
